FIND YOUR HOME. KNOW YOUR WAY TO THE WATER.

Know the water behind the home.

Explore the Fort Myers side of the Caloosahatchee, Iona and Punta Rassa, plus creek-side waterfront areas. This guide includes Fort Myers mailing areas in unincorporated Lee County; it is not a city-boundary map.

USGS The National Map reference basemap | Numbered locations are approximate geographic references, not navigation waypoints.

Riverfront, creek-side and coastal properties can have very different connections. Reaching the Caloosahatchee, a tributary, San Carlos Bay and a chosen Gulf destination are different endpoints.

No address-specific access time, depth or clearance is assigned. Confirm the complete connected route, conditions and dock rights for each property.

YOUR WATERFRONT AREA GUIDE

Compare the route, not just the view.

Match the numbered map references below. A nearby ramp, creek or bay does not establish private dock access or a navigable connection for a home.

1 Downtown / Centennial Park riverfront

South-bank downtown riverfront reference at Centennial Park. A public-ramp inventory entry is not confirmation of current ramp operations; check the City before visiting.

2 The Landings / riverfront marina area

Caloosahatchee waterfront reference at the inventory's resident-association marina ramp. Access and slip rights are private and must be verified for the individual property.

3 Iona / Harbor Place riverfront

Iona-area riverfront orientation at a resident-association ramp. Nearby river frontage does not establish a property's dock rights, clearance or navigability.

4 Hendry Creek / Coral Harbor area

Hendry Creek orientation at an inventory-listed multifamily ramp. Verify the actual creek route, current depth, restrictions and the property's facility rights.

5 Island Park Woodlands / Mullock Creek

Mullock Creek neighborhood reference at a private homeowners-association ramp. A Fort Myers postal address here is not downtown riverfront or a guaranteed Gulf-access connection.

6 Punta Rassa / San Carlos Bay launch area

Coastal orientation at the county's Punta Rassa ramp near the Sanibel Causeway. Check current launch rules and conditions; this is not a Gulf-route waypoint.

7 Port Sanibel / Punta Rassa Cove

Punta Rassa Cove reference at a commercial marina ramp in the inventory. It is not a free public launch; confirm permitted use with the operator.

8 Orange River / Orange Harbor area

Eastern Fort Myers mailing-area reference on the Orange River at a resident-association ramp. Distinguish the tributary leg from the subsequent Caloosahatchee and Gulf trip.

BEFORE YOU BUY: CHECK THE WHOLE ROUTE

1. Confirm the parcel's own dock rights and usable connection; a nearby marina or ramp does not confer access.
2. Trace every canal or creek leg to the river or bay, then add the remaining trip to your chosen Gulf destination.
3. Check current depth, bridge and overhead clearance, tides, marked channels, speed zones and local restrictions.
4. For association or marina facilities, verify membership, slip rights, launch permission, fees and current operating conditions directly.
